### **PROFESSIONAL SUMMARY**

Military veteran with 10+ years of experience and extensive knowledge in crisis intervention, interagency communication, and client advocacy. Accomplished measurable results in a dynamic, fast-paced environment. Proficient in facilitating group discussions, skill development, and building rapport with clients and demonstrating empathy. Managed and trained teams of 70 personnel while maintaining accountability for \$10M worth of sensitive equipment. I am a highly motivated Full Stack Software Developer with a love for both back and front-end development. I am eager to join an innovative team with a positive ever evolving family environment encouraging the desire to learn as well as develop software solutions for real world business problems.
